

BRAINSTORMING IDEAS

IDEA 1

USING PYTHON AS BASE TO
BUILD A WEBSITE THAT
RECOGNIZES HAND GESTURES
AND GIVING OUTPUT

Used technology

PYTHON

FLASK

OPENCV

IBM
WATSON

ADVANTAGE

We can use this website where
ever we go does not have any
installation proccess

DISADVANTAGE

It is not fast and effective it
depends on the speed of the
network we have

IDEA 2

USING PYTHON AS BASE TO
BUILD A SOFTWARE THAT
HANDGESTURES AND DOING
ACTIONS ACCORDINGLY

Used technology

PYTHON

OPENCV

ADVANTAGE

The software will be
fast

DISADVANTAGE

Has installation methods it can't be
used in multiple devices if we must
we must start a new software from
scratch
